

## PORTFOLIO PROJECT

This project is an individual portfolio who must contains various information's like:

- Personal identity
- Formation followed
- Contact form
- Technical skills
- Project tackled by project sheet with illustration
- Gallery of graphic works

For this, I will start the page with a black header with my name and nickname, and the title "Web designer".

Just below, a section "About me" with 2 frames. At left, a text about my life, my professional experience and my passions. At right, another frame where I show what language I used the most with skill bar animated.

After this, a section to show my different works made while the formation. They will take the form of screenshot, but on hover the screenshot will collapse to let appear a description of the work. For the last section, it's a contact form with 2 frames too. The traditional name, email and message field at left finished by a send buttons with letter image in, and at right an SVG image

(animation de fond qui suit la souris)

## Anthony Tournier WEB DESIGNER

### Who is this guy ?

#### The person

Lorem ipsum  
dolor sit  
amet,  
consectetur  
adipiscing  
elit. Nulla  
quam velit,  
vulputate eu  
pharetra

#### His talent (rayé) what he touched
